14. Abstract (200 words or less):

15. Brief description of project in lay terms (50 words or less):

16. Aims of the project (200 words or less):

17. Introduction and background (including whether funding is for a standalone project or part of a larger project or a seeding grant) - maximum one page (500 words or less):

18. Preliminary results - maximum one page (500 words or less):

19. Experimental design/methods (including timetable for completion) (1000 words or less):

20. Describe the research's relevance to transfusion or related fields and why the ANZSBT Research Fund is the most appropriate source of funding for your project (100 words or less):

    *Please note the Society **will not** fund:*

    - *An organisation's operational projects such as single-centre hospital audits or validation studies*

    - *Indirect research costs such as infrastructure levies or similar*

    - *Any travel expenses associated with the research project*

- *Travel expenses or registration fees for presentation of work at the BLOOD meeting*

Software projects may be considered if there is a demonstrable research benefit and not simply seeking funding of product development. Application for software projects will be decided on a case-by-case basis if they can demonstrate research priorities and outcomes conducive to ANZSBT's vision and must have caveats in place against commercialisation of the venture.

21. Does the project address one (or more) of ANZSBT's 2023 research priorities: transfusion in rural and remote settings; transfusion in the fetal, neonatal and paediatric settings; transfusion in indigenous populations or minority groups of Australia or New Zealand; community engaged research; implementation science and quality improvement; transfusion in the elderly? YES/NO

    Is the project consistent with one (or more) the Society's broad interests (i.e. basic science, clinical (including safe and appropriate transfusion practice, patient blood management and haemovigilance) and translational research in transfusion or related fields in Australia and New Zealand)? YES/NO

    Please provide a brief description. (100 words or less):

22. Has ethics approval been sought? YES/NO
    ANZSBT will not release funds to the successful applicant/s until a copy of the ethics approval is provided.
